Web Announcement 2536

Attention All Providers: Providers Must Be Enrolled in Nevada Medicaid to be Reimbursed for COVID-19 Related Services

All providers, including Ordering, Prescribing and Referring (OPR) providers, must be fully enrolled with Nevada Medicaid as a provider if they wish to be reimbursed for COVID-19 related services to Nevada Medicaid recipients. Claims will deny if the provider's National Provider Identifier (NPI) is not fully enrolled with Nevada Medicaid.

OPR enrolled providers cannot submit claims to Nevada Medicaid. OPR providers who wish to submit claims must complete the enrollment process to become a fully enrolled provider.

Fully enrolled billing providers who submit claims for COVID-19 related services to Nevada Medicaid must ensure the OPR provider indicated on the claim has enrolled as an OPR provider with Nevada Medicaid.

Please see the [Provider Enrollment](#) webpage for enrollment instructions, reference materials and a link to the Online Provider Enrollment tool.
